

Walkways

Walkways can encompass staircases, ladders used for a means of escape. Access Design can produce walkways from a variety of materials and offer a wide range of finishes, including;

- Mild Steel
- GRP
- Phenolic

Platforms

Access Design & Engineering offer a whole range of bespoke access platform to suit new or existing requirements.

We offer full design, manufacture and installation services for all platforms. Applications include;

- High Level / Low Level
- Staircases / Ladders
- Handrailing

All access requirements can be incorporated in the platform designs.
